

ioSaaS removes pain points for service providers who need to grow and scale.

ioSaaS is a powerful cloud-based white-label communications platform with Hosted PBX and UCaaS. Remove your barriers and earn up to 95% profit margins.

We understand that you have options for white-label hosted PBX services, and it may appear that all providers in the industry are similar. You likely have encountered several pain points with your current hosted provider that, over time, you have come to accept as the norm. **With over 15 years of experience serving the white-label hosted PBX and UCaaS market, we offer a robust solution to address the following common pain points.**

- ✓ Bring and Control Your Carriers
- ✓ Consolidate SIP Trunks. Stop the Separate Trunk Madness
- ✓ Eliminate Individual SIP Trunks
- ✓ Share Concurrent Calls Across All Customers
- ✓ Provides a Single Login to Manage Everything - Including Billing!
- ✓ Provides Full Featured Inbound and Outbound Fax
- ✓ Does Not Require Purchasing Multiple IP PBX Instances and Licenses
- ✓ Fully Integrated Billing, Accounting, Taxation, and Payment Gateway
- ✓ Provides Ultra-Reliable Mobile and Desktop UC Apps the work

We can stop the pain with the power of consolidation, Our **ioSaaS** offering is designed for UCaaS providers, MSPs, ISPs, broadband providers, IT dealers, and others who want to sell Hosted PBX and UCaaS services utilizing their existing carrier relationships. Don't have a carrier relationship? We can provide one.
